

## Course Description

# BEA WebLogic Server® 9.1: Advanced Messaging

### Course Details:

Course ID: WLS-A66-91  
Format: Instructor-led Training  
Length: 1 day  
Product: BEA WebLogic  
Server 9.1; JBoss

### How to Enroll:

Americas:  
Web: <http://education.bea.com>  
Email: [education@bea.com](mailto:education@bea.com)  
Phone: 1-800-232-4858

Europe:  
Email: [education.emea@bea.com](mailto:education.emea@bea.com)  
Phone: +44-1494-559500

Asia Pacific:  
Email: [edu-apac@bea.com](mailto:edu-apac@bea.com)  
Phone: +852-2290-9233

After taking **BEA WebLogic Server® 9.1: Advanced Messaging** course, you will have the skills to:

- Use WLST to administer JMS
- Configure Store and Forward
- Configure Unit of Order and Path Service
- Use transactions with JMS
- Configure a messaging bridge
- Use advanced administration techniques

### Course highlights

This course trains BEA WebLogic Server administrators on the advanced features of BEA WebLogic Server messaging. The course covers the WebLogic Scripting Tool (WLST) commands used to configure system resources and the steps to configure Store and Forward (SAF), Unit of Order, and Path Service. In addition, the course covers how to configure transactions with Java Message System (JMS), configure a messaging bridge, and connect BEA WebLogic Server to third-party messaging tools.

### Who should attend this course

- BEA WebLogic Server administrators

### Prerequisites

- BEA WebLogic Server administration experience
- Conceptual knowledge of JMS, including queues and topics
- WLST knowledge and experience

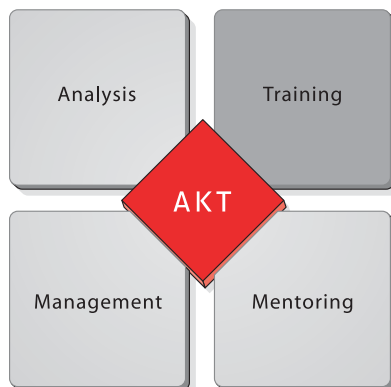

### BEA courseware that fulfills the prerequisites

- BEA WebLogic Server Administration (WLS-A11-90)

### Recommended knowledge

- Knowledge of J2EE
- Knowledge of TCP/IP networking and client/server concepts

*Accelerated Knowledge Transfer*

### Skills you will learn

- Use WLST to administer JMS and manage JMS messages
- Create and configure Store and Forward agents
- Configure Unit of Order and Path Service
- Use transactions with JMS
- Configure a messaging bridge between WebLogic JMS and MQSeries or third-party JMS servers such as JBoss
- Use advanced administration techniques

### Topics covered

- JMS administration
- Store and Forward
- Unit of Order and Path Service
- JMS transactions
- Messaging bridge and third-party tools
- Advanced administration techniques

### Additional BEA courseware of interest

- BEA WebLogic Server 9.1: Advanced Security (WLS-A67-91)
- BEA WebLogic Server 9.1: WebLogic Diagnostics Framework (WLS-A73-91)

### About BEA Education Services

BEA Education Services provides a comprehensive education solution that accelerates knowledge transfer. BEA's Accelerated Knowledge Transfer (AKT) Solution is a portfolio of learning and management services that serves the full lifecycle of enterprise training needs and provides a strong foundation for readiness and self-sufficiency. AKT's four pillars, Analysis, Training, Mentoring and Management, support the evaluation, planning, learning and tracking of enterprise and individual learning. BEA has trained over 100,000 professionals worldwide and is rated #1 by customers in education satisfaction and loyalty.

### About BEA

BEA Systems, Inc. (Nasdaq: BEAS) is a world leader in enterprise infrastructure software, helping enable companies to improve business responsiveness through Service-Oriented Architecture (SOA), a software design approach that more closely aligns IT with business objectives. With 15,000 customers worldwide including the majority of the Fortune Global 500, BEA and its WebLogic® and Tuxedo® brands are among the most trusted names in business technology. Headquartered in San Jose, Calif., BEA has 77 offices in 37 countries. More information on BEA products and services is available at [www.bea.com](http://www.bea.com).
